

Drawing an object begins with some basic shapes. Look around and you'll see them in everything.

Squares,
Rectangles &
Cubes

Circles,
Ovals, &
Spheres

Triangles,
Cones &
Pyramids

Use the shapes to
draw anything, like
this house.

Let's Draw a Dog!

Start your drawing with very light pencil lines and darken them later.

Step 1: Draw a circle for the head. Put an oval over the circle for the muzzle. Use two curved lines as the neck.

Step 2: Use ovals for the eyes. Add an oval for the nose. Place two ovals above the head to start the ears. Add a curved line for the mouth.

Step 3: Attach the ear ovals to the head with a line. Add an oval to the mouth for the tongue. Put a line down the center of the tongue. Add an large oval around one eye for a cool doggy spot!

Now you have your drawing. Darken the lines you want to keep and gently erase any you don't want.

Colour in your dog
afterwards!
